# ERIC J. KORSLIN

---

235 W. Van Buren St. - Apt. 1413 - Chicago, IL. (630) 995-1358 [www.ekorslin.com](http://www.ekorslin.com)  
<https://www.linkedin.com/in/eric-korslin-06144b37/>

## OBJECTIVE

To join an experienced team of developers to contribute to projects that deliver both real client value, and the opportunity for me to build upon my existing knowledge of effective web development.

## SKILLS

- |          |             |            |
|----------|-------------|------------|
| • HTML   | • CSS       | • REACT.JS |
| • JQUERY | • BOOTSTRAP | • CHEERIO  |
| • SQL    | • EXPRESS   | • MONGODB  |
| • MYSQL  | • NODE.JS   | • MONGOOSE |
| • PYTHON | • DJANGO    | • HEROKU   |

## PROJECTS

### CHICAGO TRIBUNE CUBS SCRAPE APP

TECHNOLOGIES: CHEERIO, MONGODB, MONGOOSE, AJAX, EXPRESS, JQUERY

Heroku-deployed application allows users to stay current on all Chicago Cub-related headlines published to the Chicago Tribune's Sports page. App saves all article headlines to a back-end MongoDB and allows for open discussion between users in response to each of the articles posted.

### EAT-DA-BURGER APP

TECHNOLOGIES: MYSQL, SQL, HANDLEBARS, HEROKU, JQUERY

Application serves as a 'to-do list', of sorts, for burger-enthusiasts & foodies alike to track record of the burgers they've heard about and would like to try. Upon sampling, users can move entries to the 'Devoured' column.

### BEAVER CREEK GOLF COURSE APP

TECHNOLOGIES: REACTJS, NODE.JS, ES6, MYSQL, SEQUELIZE

Final group project that allows future customers of a Northwest suburban 9-hole golf course the ability to book tee-times through an online web application well in advance of desired tee off time & date.

## EDUCATION

NORTHWESTERN UNIVERSITY | CHICAGO, IL  
FULL-STACK WEB DEVELOPMENT CERTIFICATE 2018

DEPAUL UNIVERSITY | CHICAGO, IL  
MASTER'S OF BUSINESS ADMINISTRATION 2014

UNIVERSITY OF WISCONSIN | MADISON, WI  
BACHELOR OF ARTS - PSYCHOLOGY 2007

## EXPERIENCE

### ANALYTICS CONSULTANT

[AMT] CHICAGO, IL - 2018 - PRESENT

Currently working to create improved reporting automation tools using Microsoft Excel in support of National & Regional Sales teams.

### BUSINESS & OPERATIONS ANALYST

[[HAPPILABS.ORG](http://HAPPILABS.ORG)] CHICAGO, IL - 2017 - 2018

Developed an enhanced full-stack application using Google Sheets for Customer Service that allowed for closer track of company-wide procurement activity. Project eliminated several redundant, yet required, steps that were tying up valuable Company resources.

### PROGRAM MANAGER

[PEOPLESCOUT, LLC] CHICAGO, IL - 2016 - 2017

Managed temporary labor demand at over 20 domestic production facility locations for Fortune 100 client Tyson Foods.

### DIRECTOR OF STAFF OPERATIONS

[CENTRAD HEALTHCARE, LLC] NAPERVILLE, IL - 2008 - 2016

Realized opportunity to save over \$2.5M/yr. in COGS identified through the development of several SQL reporting tools inside SAP Crystal Reports. Highly recognized by Company leadership for this achievement.
